

QObject

QObject

Openmscore

```
graph BT; Openmscore --> QObject1[QObject]; Openmscore --> QObject2[QObject];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'Openmscore'. Two arrows point upwards from this box to two separate boxes at the top, both labeled 'QObject'. The arrows originate from a central point above the 'Openmscore' box and branch out to the bottom of each 'QObject' box.
