

QObject

Ms::MTest

TestElement

```
graph BT; TestElement --> QObject; TestElement --> MsMTest[Ms::MTest];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'TestElement'. Two arrows originate from the top of this box: one points to a box labeled 'QObject' on the left, and the other points to a box labeled 'Ms::MTest' on the right. This indicates that 'TestElement' is the base class for both 'QObject' and 'Ms::MTest'.
