

QObject

Ms::MTest

TestBwwIO

```
graph BT; TestBwwIO --> QObject; TestBwwIO --> MsMTest[Ms::MTest];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'TestBwwIO'. Two lines extend upwards from the top of this box, branching out to the left and right. Each line then turns upwards at a right angle to point at the bottom of a box above it. The box on the left is labeled 'QObject', and the box on the right is labeled 'Ms::MTest'. This indicates that 'TestBwwIO' is the superclass, and 'QObject' and 'Ms::MTest' are its subclasses.
